

“The Success Circle helped me to learn life-changing techniques to discover what I really want from my life and how to use focused positive thinking to achieve my goals. With Debbie’s guidance, I not only developed career goals but explored all the aspects of my life to define my ideal balanced full life and the pathways to achieving it. Each session gave me a lift and a push towards my "success" in a positive and supportive environment".

- Nancy 2010

“You cannot achieve your goals until you write them down, visualize them, and actively work using the techniques of the Success Circle.”

- Robert 2010

“Debbie's Success Circle is a perfect blend of inspiration, reflection and practical steps, presented with humor and humility; she offers a workshop that is accessible and meaningful to people from many different backgrounds and belief systems. Participating in this group has helped me to work effectively on issues that I never imagined I could tackle!”

-Jocelyn 2012

“Success Circle served as a powerful catalyst for my personal, professional, and spiritual development. Through the process of reflection, formulating goals, and lively conversation, I developed a much clearer sense of direction. I learned about the true power of thought and how we can create the life we have always imagined. I will never forget our conversations about "turning obstacles into opportunities"-this concept really changed my perception on life, love, and success. With this, I understand that obstacles serve as an opportunity to grow. Debbie, I cannot thank you enough for creating a space in which I felt so inspired, supported, and free to grow. Success Circle is truly a transformative experience. “
